Thank you for choosing a product from master care A/S.

We recommend reading the user manual thoroughly before using the product (-s).

The information in this user manual applies to the shown products provided that the products have not been modified or customized and that the products have been used as recommended in this user manual.

If the customer changes, repairs or uses the product in other combinations than recommended by master care A/S the CE-approval no longer applies and the guarantee becomes void.

In case of doubt, contact master care A/S or our distributor in your area.

MDR (EU) 2017/745:

Products in this user manual are CE-approved and follows the harmonized standards. This means that the products are in compliance with the essential health and safety directives. The product(-s) comply with the standards in the Medical Device Regulation MDR (EU) 2017/745 – Class 1.

The intended use of the product/-s:

The product has an incontinence membrane which prevents liquid from penetrating the mattress. The filling is breathable and absorbing which minimizes the risk of overheating and tissue damage.

Correct use of the product:

Place the product on top of the mattress in the area where an incontinence function is needed. Place the user directly on top of the product or with a sheet between if needed.

Risk assessment:

Always make a risk assessment and a functional assessment of the user prior to using the product. This way using the product for transferring or moving a user, is ergonomic and legally sound.

Knowledge of the product/transferring:

It is important that the user of the product has been properly instructed in the use of the product and has read the user manual thoroughly prior to using the product.

master care A/S and our distributors provide education in the use of products and on our website all user manuals can be found.

Life span:

The expected life span of products with nylon sliding material with daily wear and tear and washing averagely is 2-5 years. The products life span depends on the use, users load, washing and drying temperatures and how often it is washed and dried.

Make visual inspections frequently and preferably before every use. Products with insufficient incontinence friction, defect seams, broken material or other deficiencies must be discarded. This way you will always keep a sound and healthy work environment for both helper and user.

Guarantee:

master care A/S provide a 2-year guarantee covering material defects and manufacturing defects if the product has been used correctly.

Unintended events and injuries when misusing the products:

Unintended events must always be reported to the appropriate National Authority and to master care A/S or the distributor in the current country.

master care A/S and our distributors take no responsibility for personal injuries or product damages if the product(-s) have been used in contravention of the by the manufacturer recommended intended purpose or proper use of the product.

User Manual - Inco Sheet

Variants:

1. Inco Sheet - S
Jersey top layer and soft and absorbent filling on top of a high quality incontinence membrane.

2. Inco Sheet - M
Jersey top layer and soft and absorbent filling on top of a high quality incontinence membrane.

WARNINGS

Never leave the user on the product when lying on the edge of the bed.

Never leave the product on the floor.

Make sure that all relevant brakes are activated before transferring the user.

CE-certification:

This product is CE-approved and follows the harmonized standards. This means that the products are in compliance with the essential health and safety directives. The product(-s) comply with the standards in the Medical Device Regulation (EU) 2017/745 – class 1.

User Weight:

Recommended max. user weight: 200 kg

Washing:

This product can be washed in a washing machine at max 85 °C. Gentle washing and dry tumbling significantly prolongs the durability.

Detergents pH level:

This product tolerates detergents / disinfectants with a pH level between 5-9.

Fabric softener:

Never use fabric softener as this will reduce the sliding properties significantly.

Dry Tumbling:

This product may only be dry tumbled gently and at max. 40 °C. Airdrying prolongs the durability significantly.

Surface cleaning:

The surface of this product can be cleaned with a wet cloth and soap.

Disinfectants:

This product tolerates alcoholic disinfectants with a pH level between 5-9.

Ironing:

Do not iron.

Dry cleaning:

Do not dry clean.

Bleach:

Do not bleach.

Maintenance:

Make visual inspections frequently and preferably before every use. Pay attention to torn fabric and seams. Products with deficiencies must be discarded.

User Manual:

Always read the User Manual thoroughly before using the product.

Disposal:

Always make sure to follow local guidelines when disposing or discarding the product.
