StayUp Strap

	REF (Article no.)	HMI no.	Name	UDI-DI/GTIN	Size
○	MC 001-1944	136866	StayUp Strap	05744001974827	L 75 x W 3,6 cm
○	MC 001-1943	-	StayUp Strap - 10 pcs	05744001974919	L 75 x W 3,6 cm

1. Place the StayUp Strap on top of the pants around the thigh.

2. Pass the strap through the plastic ring.

3. Tighten the strap and close the hook band against the elastic band.

4. Open the pants and release them. They can only fall down to the StayUp Strap. Regardless of whether you stand or sit when going to the toilet, the trousers will not drop to the floor.

User Manual - StayUp Strap

We recommend reading the user manual thoroughly before using the product (-s).

The information in this user manual applies to the shown products provided that the products have not been modified or customized and that the products have been used as recommended in this user manual.

If the customer changes, repairs or uses the product in other combinations than recommended by master care A/S the CE-approval no longer applies and the guarantee becomes void.

In case of doubt, contact master care A/S.

MDR (EU) 2017/745:

Products in this user manual is CE-approved and follows the harmonized standards. This means that the products are in compliance with the essential health and safety directives. The product(-s) comply with the standards in the Medical Device Regulation MDR (EU) 2017/745 – Class 1.

Intended purpose:

The intended use of this product is to prevent the pants from dropping to the floor when going to the toilet and thereby minimizing the risk of falling for users with decreased balance.

Indication:

StayUp Straps helps keep the user's trousers up during toilet visits, preventing them from falling around the ankles and creating a risk of falls. The product supports safety and independence during toileting and can be used when extra assistance is needed with dressing and undressing.

Contraindication:

Users with impaired blood circulation should use the product with caution.

Risk assessment:

Always make a risk assessment and a functional assessment of the user prior to using the product. This way using the product for transferring or moving a user, is ergonomic and legally sound.

Knowledge of the product/transferring:

It is important that the user of the product has been properly instructed in the use of the product and has read the user manual thoroughly prior to using the product. master care A/S provide education in the use of products and on our website all user manuals can be found.

Life span:

The expected life span of the product with daily wear and tear and washing averagely is 1-3 years. The products life span depends on the use, load and how often it is washed/dried.

Check that the hook binding is sufficient to hold the pants up. If not or if the product is broken it must be discarded.

Make visual inspections frequently and preferably before every use.

Guarantee:

master care A/S provide a 2-year guarantee covering material defects and manufacturing defects if the product has been used correctly.

Unintended events and injuries when misusing the products:

Unintended events must always be reported to the correct national authority and to master care A/S or the distributor.

master care A/S takes no responsibility for personal injuries or product damages if the product(-s) have been used in contravention of the by the manufacturer recommended intended purpose or proper use of the product.

ADVARSLER

StayUp Strap must be removed after use to prevent alternations in the circulation.

CE-certification:

This product is CE-approved and follows the harmonized standards. This means that the products are in compliance with the essential health and safety directives. The product(-s) comply with the standards in the Medical Device Regulation (EU) 2017/745 – class 1.
